

5 YEARS LATER WE'RE NO SAFER

Bush's lies continue to kill innocent people. Right-wing lunatics are plotting to make their ultra-conservative, narrow-minded views the law of this land. Americans are more interested in what's on TV than what's in their food, air and water. Our economy is grinding to a halt and the prospect of a better future is fading for yet another generation. We have more enemies internationally today than at any other point in our history. Do we care? Is anyone paying attention to what's going on?

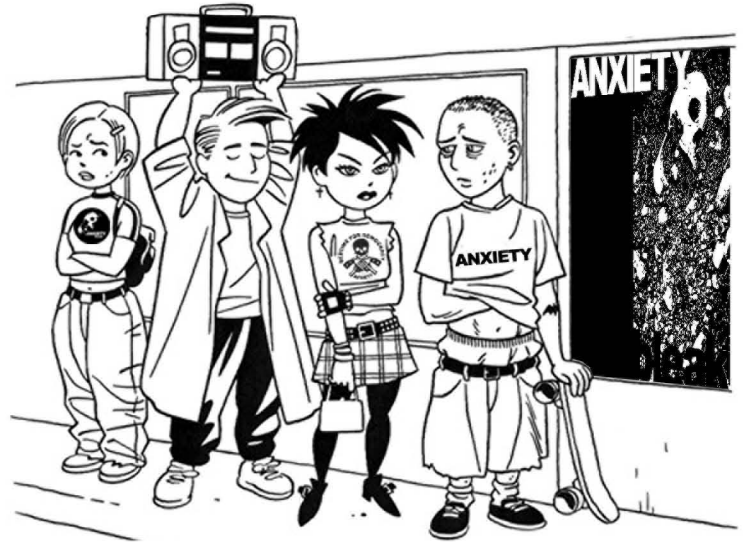

9/11/2001 - 9/11/2006

We are.

If we continue blindly on our present course we have no future. We will fall like Rome. The choice is ours. It's time to take this country back.

ANXIETY - bleak
13 track CD
Lineup includes
former members of
M.D.C. & Stiky.
\$9.11 + \$2.50 s&h
